

TAYLOR ENGINEERING, INC.

Jacksonville, FL - April 2007

She's climbed Mount Kilimanjaro and scaled mountains throughout Europe, Africa, South America, Canada and North America. Most recently, she hiked up Mount Patagonia in Chile. There, she was wakened by a snowstorm during the night, while sleeping in her tent on the mountain top.

Alexandra Carvalho has been pursuing fitness through outdoor adventure since she was a child. She has completed mountaineering and speleology courses and grown intensely focused on her outdoor hobbies throughout the past 30 years. Alexandra enjoys the challenge of defying nature and the "possibility to see places with little to no human impact." In addition to mountaineering and hiking, Alexandra is a certified group fitness instructor in yoga, pilates, indoor cycling, and aqua fitness.

With a full-time job as a Senior Scientist at Taylor Engineering, Inc., travel opportunities less frequent than she would like. Alexandra plans to pursue mountaineering in Peru, Bolivia, Argentina, Alaska, and Nepal. She has been inspired by nature and has discovered that each experience presents memorable moments and a unique set of challenges.

TAYLOR ENGINEERING specializes in Coastal Engineering, Hydrology and Hydraulics, Waterfront Engineering, and Environmental Services with offices in Jacksonville, West Palm Beach, Tampa, and Baton Rouge, LA.
